3DLAC Adhesion Products

3DLAC solves the adhesion problem on the printing bed.

Spray glue
400ml
CHF 9.90

Glue Stick
CHF 6.50

Spray glue
pump spray 100 ml
CHF 9.90

Comparison 3D Printer Filaments						
Material	Description	Application	Special Characteristic	Extruder Temperature	Heatbed Temperature	Remark
PLA	biological material (corn starch, lactic acid)	prototyping, modelling, education	biodegradable	190-220° C	0-50° C	easy handling
PLA+	PLA with additives	prototyping, modelling, cases, transport containers	higher shock resistance and stiffness than PLA	190-220° C	0-50° C	
PLA Transparent	permeable to light	model making, lanterns, windows, decoration	allows light through	190-220° C	0-50° C	
PLA Silk	PLA with silky gloss	hobby, art, decoration	shines, flowing contours	190-220° C	0-50° C	
PLA Rainbow	multicolor PLA	hobby, art, decoration	rainbow effect	190-220° C	0-50° C	
PLA Silk Rainbow	multicolor PLA with silky gloss	hobby, art, decoration	rainbow effect with gloss	190-220° C	0-50° C	
PLA Fluorescent	PLA with fluorescent colors	hobby, art, decoration	bright colors	190-220° C	0-50° C	
PLA Glow in the Dark	PLA, that shines in the dark	hobby, education	shines some hours after activating by light (artificial light, sunlight or UV light)	190-220° C	0-50° C	metal printer nozzle recommended
PLA Matte	matte PLA	hobby, decoration	does not shine	190-220° C	0-50° C	
PLA Shining	PLA with glitter	hobby, decoration	glitter effect	190-220° C	0-50° C	
PLA Wood	PLA with 10% wood	decoration, home	smells and feels like wood	190-220° C	0-50° C	
PLA Metal-Like	PLA with metal look	jewelry	looks like metal	190-220° C	0-50° C	metal printer nozzle recommended
PLA Marble-Like	PLA with marble look	art, decoration	looks like marble	190-220° C	0-50° C	
PLA Conductive	PLA, that conducts electricity	electronics	electrical conductivity	190-220° C	0-50° C	
PETG	recyclable plastic	modelling, prototyping, medicine, transparent objects	high shock resistance, waterproof, durable, odorless	220-250° C	0-50° C	easy handling
ABS	high stiffness, medium shock resistance	prototyping, modelling, construction, electrical and automobile industry	stable, grease resistant, odor development when printing	220-250° C	60-80° C	printer cabin recommended
TPU	flexible material, rubber like	automobile industry	flexible, resistant to grease, oil, abrasion and solvents	200-230° C	50-80° C	
Carbon Fiber PLA	PLA with 20% Carbon Fiber	model making, air and space industry, automobile industry	high shock resistance, light material	220-250° C	60-80° C	metal printer nozzle recommended
Carbon Fiber PETG	PET with 20% Carbon Fiber	model making, air and space industry, automobile industry	high shock resistance, light material	220-250° C	60-80° C	metal printer nozzle recommended
TPE	highly flexible material, rubber like	clips, insoles for shoes, hoses, isolation, balls, tyres	highly flexible, resistant to oil, grease, abrasion and solvents	220-250° C	60-80° C	
PVA	thermoplastic (polyvinyl alcohol)	support material for 3D printing	dissolves with tap water	190-220° C	0-50° C	
HIPS	shock proof Polystyrol	support material in 3D printing, dual extrusion with ABS	very high shock resistance	220-250° C	60-80° C	printer cabin recommended
ASA	high shock resistance	outdoor	resistant to UV light	220-250° C	100-130° C	
PA	nylon	industry	high mechanical strength	220-250° C	80-100° C	
PC	plastic made of polycarbonate	cases, covers, decoration, components	high shock resistance	220-250° C	80-100° C	
POM	thermoplastic (Polyacetal)	cogwheels, implants, car parts	high shock resistance, good gliding properties	220-250° C	100-130° C	printer cabin recommended

Information provided without guarantee. The temperature indications are to be understood as rough guidelines. They may vary depending on the printer model.

Prices

All prices include 8.1% VAT.

Delivery and Pick up

Shipping Switzerland & Liechtenstein

PostPac Priority: CHF 9.90

PostPac Economy: CHF 8.50

Free Delivery for orders over CHF 100.-- with PostPac Priority

Pick up

You are welcome to pick up your order: Adaptway GmbH, Sandackerstr. 2, 5611 Anglikon.

Please contact us by e-mail before picking up: info@adaptway.com

Payment beforehand in the Online Shop or when picking up: cash, Twint, credit cards

Delivery to Europe and Worldwide

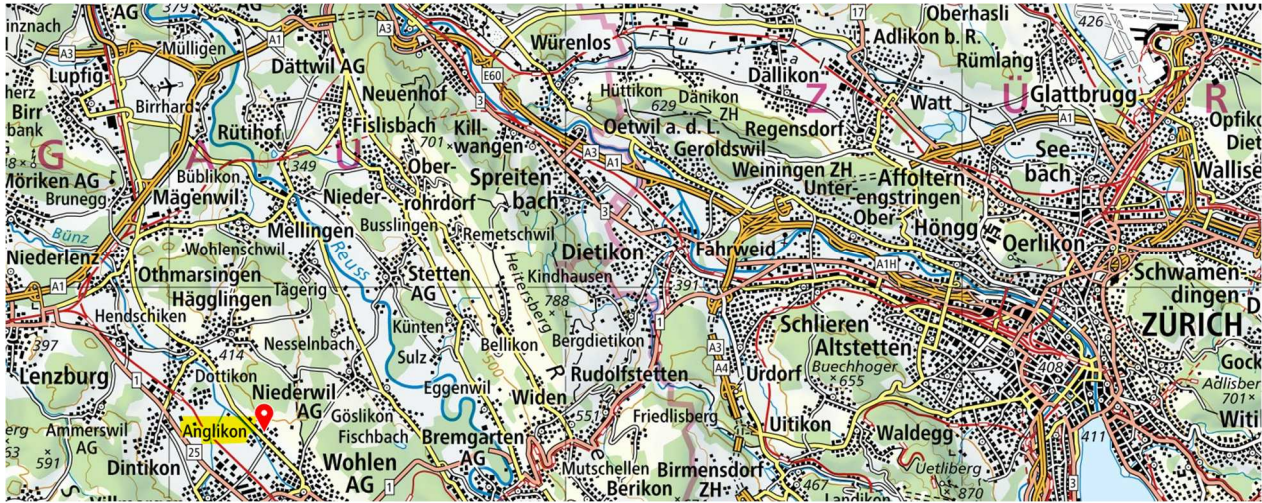

On inquiry. Please send us an e-mail info@adaptway.com

Company Register

Registered company: Adaptway GmbH

UID-Nummer: CHE-207.750.988

Company register of Canton Aargau, Aarau

Founded: 2014

Market launch of our own Adaptway filament products: 2022

VAT-No.

CHE-207.750.988 MWST

Why Adaptway?

- ✓ Free delivery over CHF 100.--
- ✓ Delivery from stock in Switzerland (5611 Anglikon)
